ABOUT ME

I'm Beka Merebashvili, a 25-year-old Junior React Developer focused on building responsive and intuitive user interfaces. Recognized for my **adaptability**, **teamwork**, and **effective communication** with teams, I'm eager to contribute and grow in a collaborative environment.

EXPERIENCE

Front-End Developer Intern - Doer Oct 2024 - present

- Develop and maintain web applications using **Next.js** and **Tailwind CSS**, creating responsive, visually appealing, and efficient interfaces.
- Collaborate closely with backend developers to integrate APIs and ensure seamless data flow between front-end and back-end systems.
- Participate in code reviews and receive mentorship to improve coding standards and team collaboration.

PROJECTS

HealthCare-App - This project is built with **Next.js** for a fast and dynamic web experience, styled using **Tailwind CSS**. It utilizes **Shadcn/ui** for smooth component interactions, **Appwrite** for backend services, and Twilio for SMS functionality. Users can book appointments with their preferred doctors, and the site includes an admin dashboard. Upon confirmation or cancellation of their booking, users receive a notification via SMS. Live URL

Digital marketing agency - Modern web application built with **NextJs, TypeScript**, **Tailwind CSS, shadcn/ui and nodemailer** enabling users to seamlessly book meetings, process payments through Stripe, and send a message on the mail about what kind of service they want. - Live URL

Github user search app - This application enables the retrieval and display of profile data for any registered GitHub user, enhancing accessibility to diverse user information. I employed **React**, **Typescript**, **Axios**, and **Styled Components** in the development of this application. - Live URL
